Profile

I have experience building web applications. I am passionate about creating a better web, focusing on speed, ease of use, aesthetic design, accessibility, and user satisfaction.

Projects

KlaudBox

Feb 2023 — Feb 2023

KloudBox is a file cloud storage service, designed to store and manage user files. The platform allows users to upload their files, generate a link to the file, and easily share it with others.

Responsibilities

- Design and code out the whole web application
- Built file upload and management.
- Worked well independently and on a team to solve problems.
- CMS integration using Sanity.io at the backend.
- Designed and modelled Restful API deployed on AWS EC2 Virtual Server.

Full Project Website

Finlac IT & Engineering

Jan 2023 — Jan 2023

Finlac IT & Engineering is a CCTV website that allows customers to contact professionals for help with the installation or repair of CCTV systems

Responsibilities

- Design and code out the whole web application
- Worked well independently to solve problems.
- CMS integration using Sanity.io at the front end.
- Added a blog feature.
